

SCRUM MEETING WEEK (11)

Sprint planning checklist

Preparation	Meeting	Follow up
Discussions with teammates individually to connect and align goals on project requirements and necessary tasks to complete. Re-oragnized team files to allow for easy connection to git repository.	We discussed team cohesion and communication. A focus on getting better organized on Git hub and re-aligning goals with team members.	Files are re-structured and all team members are on the same page moving forward. Tasks are mostly all assigned, and allocated to attempt to create a better work load distribution for team members.
